

BLS-D

Basic Life Support with Defibrillator

 **DURATION 6 hours**

FOR WHO

This course is for all those who need a standard formation about life-saving procedure on adults, children and newborns with the use of defibrillator

BLS-D (Basic Life Support with defibrillator) is a standard course, concerning procedures of vital signs support with the use of a defibrillator.

Knowing up-to-date standard intervention procedures In case of cardiac arrest is extremely important for anyone who works in the sector of rescue and first aid, but it is also generally a civic duty.

It is probable to deal with a cardiopulmonary resuscitation (CPR) in everyday life (such as at school, at work, at home...), rather than in another rescue context.

PREREQUISITES

Nessuno

BLS-D course will enhance vital signs support basics and then deepen the aspects regarding the use of defibrillator.

TRAINING METHODOLOGIES

Theoretical lesson, practical simulation, role-playing.
De-briefing, team work.

The program includes a theoretical lesson about the procedures currently recognized by ILCOR, ERC and IRC (European and Italian Resuscitation Council), which regulate emergency teams' interventions.

Thanks to mannequins, there will be a practical simulation of different techniques and use of defibrillator.

@ INFO & BOOKING

info@rescueproject.it
www.rescueproject.it
0463.973278 - 3292743226

Each participant will receive a certificate, valid for 2 years. It is necessary to repeat the course to update the procedures and obtain the renewal of the license.

PROGRAM

Basic Life Support with Defibrillator

HOURS

ACTIVITIES & CONTENT

8:30 – 9:00	Meeting Compilation of registration form Presentation of the course
9:00 – 12:30	<ul style="list-style-type: none"> • CPR importance and impact on society • Survival Chain procedures • Symptoms of necessity of CPR • CPR on adults, children and newborns • Importance of use of AED • Simulation on AED • Ventilations • Resuscitation with more rescuers • Airway unblocking procedures on adult, child, newborn
12:30 – 13:30	Lunch
13:30 – 15:30	Simulations of use of DAE on adult, child, newborn Simulations of airway unblocking Final test De briefing and certificate

EQUIPMENT

All the necessary equipment will be provided by the center.

GOALS

- Knowing standard life-saver maneuvers
- Correct emergency call
- Practicing CPR technique
- Knowing the different CPR for adults, children and newborns
- Knowing how to use a defibrillator on adults, children and newborns
- Practicing airway unblocking techniques
-
