

SAFETY NETWORK PROJECT

FOR WHO

this course is for all schools who are interested in letting their students live outdoor experiences, with the aim of approaching them to sport and outdoor, with proper skills, safety and awareness

This project aims to acquire standard safety procedures from corporations, schools and outdoor centers.

PREREQUISITES

None

Safety Network Project was created in 2013 by Trentino Wild and Rescue Project . Those two realities embrace philosophy and culture of safety in general and specifically regarding outdoor activities.

With this mission, the project organizes educational and formative experiences for students of all ages.

This project also aims to show students and adults that outdoor life can be safe, if dealt with in a correct way and with correct mindset.

TRAINING METHODOLOGIES

Theoretical lesson, simulations, role-playing. De-briefing, team work.

The program includes a rafting trip and theoretical formation. By the end of the day students will receive a participation certificate
